

## BECOME A HUMANOSTICS ASSOCIATE!

---

### Expand your client offerings with the Predictive Index®

The Predictive Index® online assessment solution is the fastest, most accurate way to measure an individual's work-related personality profile, cognitive ability and job match. Scientifically validated in hundreds of studies, PI is the primary assessment solution used by over 10,000 companies worldwide to hire, manage and develop their employees.

### Join our team of Humanostics Associates

Part of a global PI Certified Partner network, Humanostics is the largest PI distributor outside of North America. In order to drive our expansion throughout Europe, we are now looking for new Associates with whom to share our success and achieve the same market-leading position as in our home market of Denmark, where we are already #1.

### 3 reasons to add PI to your portfolio

**PI is a high-margin, license-based product.**

85-90% of our clients renew their annual subscription year after year, ensuring you long-term recurring revenue with minimal effort beyond the initial sale.

**Additional revenue streams and upsell opportunities.**

The PI license is coupled with certification workshops which deliver additional income, whether or not you deliver the training yourself.

**Own your market.**

As Humanostics is the sole-provider of PI in much of Europe, partnering with us enables you to cultivate your prospects and develop your pipeline free of competition.

### Do you have what it takes to become a Humanostics Associate?

**We expect you to:**

- Have entrepreneurial grit and an established business network
- Sell B2B software and training
- Be experienced in sales and consulting

### Interested?
