TURN YOUR PEOPLE INSIGHT INTO ACTION
EMPOWER YOUR LEADERS AND HR PROFESSIONALS TO BECOME PI EXPERTS

Dear Humanostics Partner,

The PI assessments allow you to see beyond the surface of candidates and employees. The people data insights you get from the PI assessments help you determine whether a candidate has the desired behavioral traits and cognitive ability. This type of strategic hiring is the best way to predict how a candidate will think and work to ensure job fit. And when you understand what truly drives your employees, you can use this information to develop them, manage them and inspire them. But how do you ensure you understand and interpret the data from the PI assessments in the right way to get the true value from them? Attend a course to get certified in PI!

The Becoming a PI Practitioner workshop

Attending the intensive two-day workshop Becoming a PI Practitioner will empower your HR Professionals to drive change and build a better workforce. Participants will become experts in applying PI's methodology throughout your organisation to drive better teamwork, hires, engagement, and productivity. Read all about the benefits and impact you get from attending the Becoming a PI Practitioner workshop HERE.

Open-enrolment PI Practitioner workshops

Humanostics offers open-enrolment PI Practitioner workshops in several locations in Europe and South-East Asia. You can always find a list of open-enrolment workshops on our web site at THIS LINK.

Workshops in India, Israel, UAE and Ghana scheduled.

Humanostics regularly hosts PI Practitioner workshops in Denmark, Germany, Poland, The Netherlands, Singapore and Indonesia. In addition to these locations, we currently have open-enrolment workshops scheduled in the following locations:

Mumbai, India	Tel Aviv, Israel	Dubai, UAE	Accra, Ghana
28-29 August	09-10 September	17-18 September	15-16 October
English	English	English	English

Open-enrolment workshops in other countries

Humanostics is part of a global network of PI Certified Partners who offer training in a long list of countries around the world. For more information on the options close to your location, please contact training@humanostics.com.

In-house training

If you are a group of people in the same geographical location, we are happy to arrange in-house training at your premises. Learning about PI with your colleagues will allow you to have a shared language and understanding around the PI methodology. The Becoming a PI Practitioner workshop – and all our other courses – are available as in-house sessions, and it is also possible to customise the workshops or build tailored training that suits your specific needs. CONTACT US to learn more about the options.

Courses on recruitment, staff development and teams

Are you already trained in PI and are you looking for inspiration on how to use PI for recruitment, development, or how to optimize team performance? Get even more out of your PI license. Check out our new 1-day courses HERE.

Talent Optimization

Talent Optimization is a way of framing the PI products and solutions in the broader context of aligning an organisation's people strategy with its business strategy. PI provides you with invaluable people data and tools that can help you understand how people fit into a broader business strategy and optimise the output and productivity of people. Humanostics' consultants can help you design a talent strategy that aligns with your business strategy to achieve the desired results. You can read more about Talent Optimization HERE, and if you would like to know more about how Humanostics can help you, please do not hesitate to reach out to us at info@humanostics.com or tel. +45 5389 0535.

PI TECHNICAL RECOMMENDATIONS

To ensure the best possible results when using PI software, share these technical recommendations with your IT Department. Some companies have heightened IT or email security policies that require a few extra steps to avoid errors in the software, or to ensure that PI software-related emails are delivered and not rejected.

Secondly, we recommend using Google Chrome or Mozilla Firefox as your internet browser, not Internet Explorer, as the latter might cause various errors to occur in PI Software.

NEW PI APP

Would you like to test your PI behavioral knowledge in a fun way? The new 'PI in a Flash' app is designed to help you review the concepts of the PI BA, test your knowledge after attending a workshop or get a quick refresher. Try the flashcards, take the daily quiz, or practice and learn by swiping through the knowledge cards.

Find the 'PI in a Flash' app in the iOS App Store and the Google Play Store
