

DESIGN TEAMS

INTENSIVE WORKSHOP FOR PI PRACTITIONERS WHO WOULD LIKE TO FACILITATE TEAM SESSIONS.

YOU ARE LOOKING FOR THE TOOLS TO WORK ACTIVELY WITH TEAM DISCOVERY, AND YOU SEEK INSPIRATION FOR HOW TO OPTIMALLY RUN A PI-BASED TEAM SESSION.

WHY YOU SHOULD PARTICIPATE

Diversity and inclusion are high on the agenda in many companies, and while diversity and working with differences can be sources of great synergy, they can also cause conflict. If collaborations are not working well, it can lead to demotivation and cause great frustration, and you can end up working in silos. If you work with individuals in a team context, they are much more likely to feel part of a strong team with shared goals where each makes the other better, and where the team is more than the sum of the individuals.

PI is a tool with great potential and an obvious platform for working with your teams. Team Discovery allows you as the facilitator to shed light on differences and create insight, acceptance and recognition of the diversity, all seen through the lens of the team's strategic objectives.

WHAT YOU WILL GET

- Inspiration for how to build high-performing teams
- Practice in the role of facilitator and team coach
- Tools for managing conflict
- A Team Discovery team session kit
- Ideas for how to put together teams

Knowledge about the roles on a team, power hierarchies, internal competition, and informal leadership
An overview of the PI INSPIRE reports that support working with teams and collaboration

PI CERTIFICATION REQUIRED FOR PARTICIPANTS
